October 2009 Newsletter

I'm am very pleased about the number of dedicated flyers we have in our flying club. This month, not only have they braved the cold weather, and some powerful winds, nothing has stopped them from flying! Great job guys let's not stop flying just because it's a little cold or windy! Remember that it will make you a much better pilot. Fly as often as you can.

Scotty Lyons has a new Ultimate (see attached photos). It is just drop dead gorgeous and BIG. He has been flying it over at Strawberry Acres along with Chris and he is getting better and better with each passing flight. You have just got to take a ride over to Strawberry Acres on a Saturday or Sunday and get a terrific Air Show from both Scott and Chris. One of Scott's good friends is Danny and he is up from North Adams and he is going to join the club next year as he has also gotten the bug to fly the big Gassers . So come next summer it will be quite the show.

We had a good turn out for the picnic and a early planning meeting for the Gas Fun Fly in June. Good food will always bring out the crowds. We had good weather also to fly in. This was a preliminary planning meeting just to get the club thinking of all the planning that needs to go into a successful fun fly. It was decided to have another 2 day event on June 12 and 13. The set up will be on Thursday and early arrivals will be accommodated on Friday. Open flying on both Saturday and Sunday, winding up on Sunday around 3:00pm. The tear down and clean will be up right after. Both Chris and Scotty have volunteered to head up the event. Make sure that you come to the next meeting, November 1, 09 @ 7:00 pm at Strawberry Acres club house, to get more information and to help out the flying club make this another successful event.

The Electric Fun Fly has also been decided and it will be a 1 day event on August 14, 09. This will be headed up by both Ken McCaughin and Alan Mostek. Alan will bring some new art work to get things rolling and like the Gas fun fly we will need to get a dedicated group

who will also volunteer to help make this event both fun and profitable.

Again I'm am most proud to be the president of such a great flying club. Usually when a member gives a donation to the club I usually write that person a personal note from me thanking them for their donation. This time I want to spotlight a special flying club member Charlie Dziedic. Charlie is a quiet type of guy and most likely you have never heard of him. Well, he has made a special donation to the club of \$ 100.00. He gave me the check when he stopped by to enjoy the picnic and fun fly. He said that he was very impressed with our club and that due to his health he wasn't able to do the physically demanding set up work but, that this was he way of contributing and giving back to the club. Thank you Charlie for your kind and thoughtful donation.

The agenda for the next meeting on November 1, 09 at Strawberry Acres club house is:

1) Treasurers report. ( Tim Smith can't make it because of work, but he will e-mail me the reports and I will go over them with the club.)

2) Old Business:

a) Gas fun fly . Chris and Scott to make there presentation to the club and progress report.

b) Ken and Alan Mostek will also make there electric fun fly report with a progress report.

3)New Business:

a) Get the mowers ( both ) ready for the last mowing of the season and do any last minute repairs as needed.

b) Discuss the required repairs needed for the mower over at Meersworth (new exhaust pipe) and discuss the cost of getting the blades sharpened on both machines. Any other new business to be discussed as well.

Fly safe and Fly often,  
Richard Scheer President
